Here it is. Let me know if you want me to send it or you will. Think we can send it now. Do we want to pdf it?

I am actually thinking you should send this instead of me? State had not comment.

Kathy – here are my edits. As I stated in my comment in the SOW, the email transmitting the SOW needs to say, “Attached is the draft SOW for the Stibnite Mine. In the interest of moving the technical discussion along, we are providing the draft SOW for your review without the State having had an opportunity to review the SOW. The State’s comments will need to be incorporated. Also, the USFS, EPA and IDEQ have not worked out the details of the agencies’ roles at the Site. The current draft (with the exception of the “Oversight” section) reads as if EPA is the sole agency involved. The SOW will be modified to reflect IDEQ and USFS’ roles and decision making authority.”

In other words, I did not spend the time changing each reference to “EPA” to “the Agencies” because I am not sure what the FS’s and IDEQ’s expectations are for their roles in the project. Once we have worked that out, I will modify the SOW to reflect that agreement.
